A PERSONAL INJURY CAN HAVE A MAJOR IMPACT ON YOUR LIFE

By instructing our experts to help you, you can be sure that you will be in safe hands. Keep this with you so that if you are involved in any accident you will know what to do.

AFTER AN ACCIDENT YOU SHOULD

- Obtain the name, address and contact details of the other person along with details of their insurance company and policy details
- Obtain full details of any witnesses – they will be essential in proving your case
- Take photographs of the scene of the accident. If possible include something which will help to scale and date the accident (a newspaper with the date on it)
- If you are injured, report the accident to the police

IF YOU ARE IN A CAR ACCIDENT YOU MUST ALSO

- Obtain the vehicle registration of the other driver
- Do not move the vehicles until the police have arrived
- Do not admit liability – your insurance policy may not allow it

CAN I CLAIM?

We offer a free initial consultation, so if in doubt please ask, but in most cases you can claim if:

- The accident was less than 3 years ago (more in special cases – ask us)
- Someone else is to blame for your injuries (even if it is your partner in a car accident)

YOU HAVE NOTHING TO LOSE AND EVERYTHING TO GAIN

In most cases it is free to claim and you will recover 100% of your compensation if successful.
